May 2020 - Present | Remote

• Responsable of building Cross-Platform applications using Flutter the framework built by Google.

## **MENTORNATIONS** | Software Development Intern

Jun 2019 - Aug 2020 | Tunis, Tunisia

- Worked on mentoring youth aged between 15-18 to learn how to build Android apps using MIT App Inventor in collaboration with the U.S. embassy Tunis.
- Leading a team of developers their mission is to mentor youth aged between 15-18 to learn MEAN Stack development to build dynamic websites in one month.

## **PROJECTS**

## MOBILE APPLICATION | ERGONOMIC APPLICATION

Sep 2019 - Mars 2020 | Monastir, Tunisia

Developed a mobile application for iOS and Android platforms built with Flutter and NodeJs and the Admin dashboard using MEAN Stack (MongoDB, Express, Angular and NodeJs). The base function of the application is to improve the situation of work for Doctors, nurses and hospitalized patients. The admin can affect mission to the doctor to visit a service and allow him to use the app to answer to questions taking pictures, videos, recording vocals then send his response in real time.

#### **LEMIROIRDUSAHEL.COM** | REAL-ESTATE WEBSITE

Sep 2020 | Sousse, Tunisia

Link: lemiroirdusahel.com

A real estate company website, built using HTML5, CSS3 and Bootstrap4. It was built using Bootstrap Studio. The website is deployed in a Ubuntu VPS using the aapanel control panel.
